
Brake Parts Identification

Topic number	LI42.10-N-036235
Version	1
Design group	42.10 Service brake
Date	09-27-2005
Validity	Sprinter MY02-06
Reason for change	

Complaint:

Parts catalogue does not specify exactly which brake parts are needed in service

Cause:

Different brands are used for Sprinter brake calipers and pads

Remedy:

The chart below shows the brand of the brake calipers used in production

Series Front Rear
2500 Bosch Conti-Teves
3500 Bosch Bosch

Some Sprinter have retrofitted calipers of a brand different to the one from production.
Therefore it is critical to check the caliper's brand before mounting the new pads.

Use attached file to determine required part numbers.

Symptoms
Chassis / suspension / Brake system / Service brake / Brakes Function / Wears
